HR Dept. — FlyFlat
1005 Mansell Avenue
Unit B
78702 Austin, TX

September 25, 2024

Dear Recruiter,

I am writing to you in order to approach to you my resume. — just mentioned you are in the search for a Senior Python Web Developer, so please take in account my CV for the position.

I collaborated for 9+ years as a Full Stack Developer maintaing multiple e-commerce platforms using technologies like Flask, FastAPI, PostgreSQL, React, ObjectiveC, and multiple 3rd party API integration.

As a Bioinformatic Master's Degree, I developed and maintained a cientific server <https://mistic2.leloir.org.ar> developed with similar backend technologies like Celery over RabbitMQ and Auth0.

I woked with Rails in the past, I believe I could learn the details and adapt in order to help to achieve your goal.

If you feel I could fit your needs, let's schedule a call through eloy.colell@gmail.com.

Sincerely yours,

Eloy Adonis Colell
